CLARIFICATION 1
RFQ 424312-BF

Question 1:

“Please tell me also which Katanax fluxer you need and with how many positions, respectively (only the X-300 is expandable as requested)?”

Answer 1:

Our specification does not indicate how many positions, only “Shall have capacity to expand number of vessel positions”. Therefore consulting the Katanax range (K1 Prime, X-300 and X-600), the X-300 is the only Katanax to meet this requirement.
