1. Introduction

- **Background / Context for Required Services / Results:**

In order to support the Government of Georgia to meet its obligations undertaken on the international, regional and local levels inter alia in terms of eliminating violence against women and girls (EVAWG) and in particular domestic violence and sexual violence, with the generous support by the European Union, alongside with the government and development partners, UN Women is working towards addressing gender inequality in a coherent and comprehensive manner, covering a wide range of issues, including prevention and response to violence against women and girls. Series of awareness-raising interventions and campaigns targeting the public and decision makers at all levels, aimed at changing the attitudes, values and structures that sustain inequality and discrimination and generating demand for the specialized services.

UN Women's EVAWG programme goal is to support creation of an enabling environment to eliminate violence against women and girls, especially sexual and domestic violence in Georgia. UN Women has been supporting national partners in Georgia to end violence against women and girls and domestic violence (VAWG/DV) since 2010. Throughout the past decade, technical assistance has been provided to the Government of Georgia to align national legislation and policies with the relevant international legal frameworks and standards. To enhance implementation of the laws and policies, UN Women Georgia has supported the establishment of specialized services for survivors of domestic violence, such as the first state-run shelters, crisis centres and hotlines and rehabilitation programmes for perpetrators.

Under the EU funded project Ending Violence against Women and Girls in Georgia (EVAWGG) UN Women plans to contribute to changing the behaviour of men and women, boys and girls, that is currently all too often influenced by prejudice, gender stereotypes or gender-biased customs and traditions, by engaging CSO in the field of awareness-raising to increase VAWG/DV reporting as well as the transformation of the social norms and stereotypes that condone gender-based violence.

The UN Women Georgia Country Office has procured the *In Her Shoes training kit*, designed by the Washington State Coalition Against Domestic Violence based on the experiences of real survivors for experiential learning about domestic violence. UN Women plans to partner with local CSO to utilize an innovative participatory methodology derived from the interactive role-play *In Her Shoes*¹ to engage community members and sensitize them to the causes and consequences of violence against women and girls and to generate empathy for the victims/survivors of such violence. The team of selected organization(s) will identify the target groups in Guria and Kvemo Kartli to reach out to at least 1200 beneficiaries (50% men and 50% women) in the regions and conduct trainings according to the training kit in coordination with UN Women. It is also expected that 60% of beneficiaries that is 720 individuals will be from Kvemo Kartli, while 480 participants will be from Guria. The training participants move, act, think and make choices as a person experiencing an abusive relationship. They engage in a simulation in which they walk in the shoes of the various characters experiencing abusive and controlling relationships. Groups or individuals are given a card describing the background and current situation of a character. Different stations throughout the room contain colour-coordinated plot cards that align with each character. As groups are led to different stations, they read through scenarios their character faces with their partner and various systems / institutions and make choices about their character's next steps. The most critical part of the simulation, however, is the debrief. Discussion helps participants answer lingering questions, gives the facilitator the opportunity to dispel persistent myths and misunderstandings and helps participants engage in the way they can make change individually and locally. The duration of each training is around 2 hours and the ideal number of participants is 16 individuals. The kit is already being translated and will be adapted to the Georgian context, so that the contractor organization can further introduce it to the project target regions to women activists and community workers. The visual materials and supportive items should also be prepared by the identified partner prior to the trainings in coordination with UN Women.

With the purpose to engage local communities in Kvemo Kartli and Guria UN Women seeks to partner with local NGO(s) to continue further adoption of the training kit and arrangement of the training for the project target groups.

- **General Overview of Services Required / Results:**

UNWOMEN will carry out the technical evaluation applying the evaluation criteria and point ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

1	Proposal is compliant with the Call for Proposal (CFP) requirements	15 points
2	The Organization's mandate is relevant to the work to be undertaken in the TORs (component 1)	20 points
3	The Proposal demonstrates a sound understanding of the requirements of the TOR and indicates that the organization has the prerequisite capacity to undertake the work successfully (components 2, 3 and 4)	35 points
TOTAL		70 points

11.2 PHASE II - FINANCIAL PROPOSAL (30 points)

Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents' prices to that of the lowest evaluated cost.

Formula for computing points:

Points = (A/B) Financial Points

Example: Proponent A's price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B's price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points

Mandatory requirements/pre-qualification criteria
--

Proponents are requested to complete this form (**Annex B-2**) and return it as part of their submission. Proponents must meet all mandatory requirements/pre-qualification criteria as set out in **Annex B-1**. Proponents will receive a pass/fail rating on this section. To be considered, proponents must meet all the mandatory criteria described in Annex B-1. UN WOMEN reserves the right to verify any information contained in proponent's response or to request additional information after the proposal is received. Incomplete or inadequate responses, lack of response or misrepresentation in responding to any questions will result in disqualification.

Component 1: Organizational Background and Capacity to implement activities to achieve planned results (max 1.5 pages)

This section should provide an overview with relevant annexes that clearly demonstrate that the proposing organization has the capacity and commitment to implement successfully the proposed activities and produce results. Key elements to be covered in this section include:

1. Nature of the proposing organization – Is it a community-based organization, national or sub-national NGO, research or training institution, etc.?
2. Overall mission, purpose, and core programmes/services of the organization
3. Target population groups (women, indigenous peoples, youth, etc.)
4. Organizational approach (philosophy) - how does the organization deliver its projects, e.g., gender-sensitive, rights-based, etc.
5. Length of existence and relevant experience
6. Overview of organizational capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management)

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women TOR. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the TOR.
2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators

which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proposing organization and UNWOMEN.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an Annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include in the Implementation Plan all required milestone reports and monitoring reviews.

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- How the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan
- How any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received
- How the participation of community members in the monitoring and evaluation processes will be achieved

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity). Describe how such risks are to be mitigated.

Include in this section also the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, government environmental policy remaining stable) which are anticipated in planning, and on which the feasibility of the activities depend

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that would cost

less.

- The budget should include all costs associated with managing and administering the activity or results, particularly include the cost of monitoring and evaluation.
- The budget could include “Support Costs”: those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, over-head costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- “Support Cost Rate” means the flat rate at which the Partner will be reimbursed by UN Women for its Support Costs, as set forth in the Partner Project Document and not exceeding a rate of 8% or the rate set forth in the Donor Specific Conditions, if that is lower. The flat rate is calculated on the eligible Direct Costs.
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the Budget Sheet should agree with those on the proposal header and text.
