Develop materials for the ‘Increasing Quality of and Access to Early Childhood Education Services (ECE) Project’ National Campaign	REF: COM/TURA/2021/B
Programme/Programme Activity Title and Work Plan Code:	
Programme Structure:	
4350/A0/06/880/008 – Communication and Advocacy	
Activity 001 – External Relations	

I. BACKGROUND

From 0 to 8 years of age is the fastest period of a child’s linguistic, social-emotional and physical development. Research shows that during this period, characterized as the early childhood years, most brain and language development is completed. This critical early period is when children start developing thinking, learning, speaking, questioning, self-regulating and social interaction skills. Accordingly, the aim of early childhood education is to prepare children for social and school life by supporting basic development areas like mental, socio-emotional, language, motor skills and self-care. Research shows that quality education during the early years set the foundation for children to reach their development potential and has a positive impact on their preparedness for school.

According to the Government of Turkey’s 11th National Development Plan (NDP) and the Ministry of National Education’s (MoNE’s) Education Vision 2023, although there has been significant progress made in overcoming education issues in the last decade, Turkey still faces challenges in providing quality and accessible education for all children. In addition, Turkey is committed to providing at least one-year of compulsory ECE for all five-year-olds by 2023 which will result in an increased demand for quality ECE services across the country.

Despite the fact that Turkey has put remarkable efforts into increasing the accessibility of ECE services, Turkey has still one of the lowest net enrolment rates (NER) for preschool education among OECD countries. The fact that the preschool education NER of five-year-old children is 68.30% (67.23% for girls and 69.32% for boys) and for three-to-five-year-old children is 39.11% shows more investment is needed to reach 2023 targets. There are also several other constraints that Turkey is facing, which impede full ECE enrolment, such as parents’ perceptions, quality of ECE services, lack of physical spaces, and financial barriers.

MoNE and UNICEF started collaborating under the Instrument for Pre-Accession Assistance (IPA) – II Programme funded by EU and partnered in a project entitled, “Increasing Quality of and Access to Early Childhood Education Services (ECE)”. This project includes 4 main expected results:

Result 1: ECE services are expanded for 3 to 6-year-old children, especially for children in the most vulnerable communities.

Result 2: ECE service capacity and curriculum and materials are revised to increase quality of ECE services based on national standards.

Result 3: Families' beliefs and attitudes regarding the quality and value of ECE services, especially in the most vulnerable communities, is positively changed.

Result 4: A conducive environment for increased access to quality ECE services is promoted by revised ECE legislation.

II. PURPOSE OF ASSIGNMENT

This consultancy aims to establish Long-Term Arrangement(s) (LTAs) with selected company/companies who will provide professional services to develop materials for the 'Increasing Quality of and Access to Early Childhood Education Services (ECE) Project' National Campaign and other relevant activities of UNICEF Turkey for a period of 3+2 years.

As part of the "Increasing Quality of and Access to Early Childhood Education Services (ECE)" project MoNE and UNICEF are planning to launch a national campaign. The campaign aims to raise awareness among the general public on the importance of quality Early Childhood Education (ECE) to develop young children's cognitive, linguistic, emotional and social skills, develop and disseminate strong advocacy narratives underscoring the importance of preschool enrolment at an appropriate age. The campaign will also raise awareness among the target audience, media and general public, on how MoNE, EU, UNICEF, MoLSS and CSO partners work together to upscale Early Childhood Education in Turkey.

Under the supervision of the Communication Specialist in coordination with the UNICEF ECE and MoNE teams, the consultancy company will deliver:

1. **Integrated Awareness Campaign plan:** Design an integrated communication plan with an above and below the line activations based on the needs and target audience indicated earlier. The campaign will include the following products;
 - a) **Baseline assessment:** Conducting a mix (70% of the assessment is qualitative and 30% is quantitative) baseline assessment to understand the main sources of information for the campaign target audience. The assessment should include the products format, media tools and mediums which are optimal to reach the campaign target audience. The qualitative study will be conducted using a minimum sample of 120 participants representing all the primary campaign target audience. The qualitative section of the assessment will include in-depth interviews to provide guidance on; 1)The sources of information of the target audience; 2)The preferred language/media products for them (for example the participants can be asked what was the most

effective behavioural change campaign from their point of view); 3) The hours they use different communication mediums/channels (when they watch TV, when they check social media, etc.). The **quantitative** section of the assessment must include a representative sample of participants covering all the primary and secondary target audience of the campaign as indicated below. The quantitative assessment will cover; 1) Opinions/interest of parents and grandparents in sending their children/grandchildren to preschool; 2) What are the main concerns, limitations that prevent them from sending the children to preschool; 3) How can these concerns be overcome from their point of view; 4) Their opinions about the benefits/disadvantages of sending children to preschool education.

b) Two TV Spots (45 seconds): Production of two TV spots, it can be animation or scripted spots with actors or adapted field videos of real beneficiaries, based on the campaign mix to be provided by the company. The TV spots should encourage target audience, especially parents and caregivers to enroll their young children in pre-schools at an appropriate age. The TV spots should also highlight the available services for vulnerable groups that enables them to access ECE services, such as mobile centers. All produced TV spots must comply with Radio and Supreme Council criteria. **The estimated target for outdoor implementations is 20 million.**

c) **Outdoors:** conduct an outdoor campaign in selected **30** provinces. The campaigns will be tailored to reach the targeted audience based on geographic and socio-economic distribution. The outdoor campaign aims to reach mainly the audience that are hardly reached via other tools/elements of the campaign including social media and TV spots. The outdoors messages should complement the TV spots messages (ECE importance and accessibility). The outdoors will be placed in the project pilot provinces. The locations, formats and dimensions of the outdoors will be guided by the outcomes of the baseline assessment, the available format in each province and will be decided by UNICEF & MoNE. **The estimated target for outdoor implementations is 50 million.**

Social Media GIFs: (minimum 10 GIFs) Production of social media GIFs -15-20 seconds each-to be used on the social media accounts of the Project. **The estimated target for outdoor implementations is 20 million.**

***The fees for baseline assessment costs and outdoor renting costs” will be provided by bidders separately.¹**

¹ **These amounts provided by companies for “assessment costs and outdoor renting costs,” shall be the maximum/ceiling amounts for these items, but, the payments of these services to the affected to the contractor will be made as actual invoices.**

***Visual, audio-visual, or verbal advertisement(s) of any type expressed or implied, of any organization(s), contractor(s), any group or individual(s), and any product(s) in the production is/ are strictly forbidden.**
