	<p>list of terrorists and terrorist financiers, and in UNDP’s ineligible vendors’ list;</p> <ul style="list-style-type: none"> <li>f) They have a good financial standing and have access to adequate financial resources to perform the contract and all existing commercial commitments,</li> <li>g) They have the necessary similar experience, technical expertise, production capacity where applicable, quality certifications, quality assurance procedures and other resources applicable to the provision of the services required;</li> <li>h) They are able to comply fully with UNDP General Terms and Conditions of Contract;</li> <li>i) They do not have a consistent history of court/arbitral award decisions against the Bidder; and</li> <li>j) They have a record of timely and satisfactory performance with their clients.</li> </ul>
<p><i>30. Evaluation of Technical and Financial Proposals</i></p>	<p>30.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other RFP documents, applying the evaluation criteria, sub-criteria, and point system specified in the Section 4 (Evaluation Criteria). A Proposal shall be rendered non-responsive at the technical evaluation stage if it fails to achieve the minimum technical score indicated in the BDS. When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required.</p> <p>30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. The Financial Proposals corresponding to Technical Proposals that were rendered non-responsive shall remain unopened, and, in the case of manual submission, be returned to the Bidder unopened. For emailed Proposals and e-tendering submissions, UNDP will not request for the password of the Financial Proposals of bidders whose Technical Proposal were found not responsive.</p> <p>30.3 The evaluation method that applies for this RFP shall be as indicated in the BDS, which may be either of two (2) possible methods, as follows: (a) the lowest priced method which selects the lowest evaluated financial proposal of the technically responsive Bidders; or (b) the combined scoring method which will be based on a combination of the technical and financial score.</p> <p>30.4 When the BDS specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:</p> <div style="border: 1px solid black; padding: 10px; margin-top: 10px;"> <p><u>Rating the Technical Proposal (TP):</u></p> <p style="text-align: center;"><b>TP Rating</b> = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p style="text-align: center;"><b>FP Rating</b> = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> <p style="text-align: center;"><b>Combined Score</b> = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)</p> </div>

<p>31. <i>Due Diligence</i></p>	<p>31.1 UNDP reserves the right to undertake a due diligence exercise, also called post qualification, aimed at determining to its satisfaction, the validity of the information provided by the Bidder. Such exercise shall be fully documented and may include, but need not be limited to, all or any combination of the following:</p> <ul style="list-style-type: none"> <li>a) Verification of accuracy, correctness and authenticity of information provided by the Bidder;</li> <li>b) Validation of extent of compliance to the RFP requirements and evaluation criteria based on what has so far been found by the evaluation team;</li> <li>c) Inquiry and reference checking with Government entities with jurisdiction on the Bidder, or with previous clients, or any other entity that may have done business with the Bidder;</li> <li>d) Inquiry and reference checking with previous clients on the performance on on-going or contracts completed, including physical inspections of previous works, as necessary;</li> <li>e) Physical inspection of the Bidder's offices, branches or other places where business transpires, with or without notice to the Bidder;</li> <li>f) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.</li> </ul>
<p>32. <i>Clarification of Proposals</i></p>	<p>32.1 To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Bidder for a clarification of its Proposal.</p> <p>32.2 UNDP's request for clarification and the response shall be in writing and no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP.</p> <p>32.3 Any unsolicited clarification submitted by a Bidder in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.</p>
<p>33. <i>Responsiveness of Proposal</i></p>	<p>33.1 UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself. A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.</p> <p>33.2 If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.</p>
<p>34. <i>Nonconformities, Reparable Errors and Omissions</i></p>	<p>34.1 Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.</p> <p>34.2 UNDP may request the Bidder to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Bidder to comply with the request may result in the rejection of its Proposal.</p> <p>34.3 For Financial Proposal that has been opened, UNDP shall check and correct arithmetical errors as follows:</p> <ul style="list-style-type: none"> <li>a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion</li> </ul>

	<p>of UNDP there is an obvious misplacement of the decimal point in the unit price; in which case the line item total as quoted shall govern and the unit price shall be corrected;</p> <p>b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and</p> <p>c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail.</p> <p>34.4 If the Bidder does not accept the correction of errors made by UNDP, its Proposal shall be rejected.</p>
<b>E. AWARD OF CONTRACT</b>	
35. <i>Right to Accept, Reject, Any or All Proposals</i>	35.1 UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Bidder(s) of the grounds for UNDP's action. UNDP shall not be obliged to award the contract to the lowest priced offer.
36. <i>Award Criteria</i>	36.1 Prior to expiration of the proposal validity, UNDP shall award the contract to the qualified Bidder based on the award criteria indicated in the BDS.
37. <i>Debriefing</i>	37.1 In the event that a Bidder is unsuccessful, the Bidder may request a debriefing from UNDP. The purpose of the debriefing is to discuss the strengths and weaknesses of the Bidder's submission, in order to assist the Bidder in improving its future proposals for UNDP procurement opportunities. The content of other proposals and how they compare to the Bidder's submission shall not be discussed.
38. <i>Right to Vary Requirements at the Time of Award</i>	38.1 At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.
39. <i>Contract Signature</i>	39.1 Within fifteen (15) days from the date of receipt of the Contract, the successful Bidder shall sign and date the Contract and return it to UNDP. Failure to do so may constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security, if any, and on which event, UNDP may award the Contract to the Second Ranked Bidder or call for new Proposals.
40. <i>Contract Type and General Terms and Conditions</i>	40.1 The types of Contract to be signed and the applicable UNDP Contract General Terms and Conditions, as specified in BDS, can be accessed at <a href="http://www.undp.org/content/undp/en/home/procurement/business/how-we-buy.html">http://www.undp.org/content/undp/en/home/procurement/business/how-we-buy.html</a>

Where a performance security is required, the receipt of the performance security by UNDP shall be a condition for rendering the contract

	effective.
42. <i>Bank Guarantee for Advanced Payment</i>	42.1 Except when the interests of UNDP so require, it is UNDP's preference to make no advance payment(s) (i.e., payments without having received any outputs). If an advance payment is allowed as per BDS, and exceeds 20% of the total contract price, or USD 30,000, whichever is less, the Bidder shall submit a Bank Guarantee in the full amount of the advance payment in the form available at <a href="https://popp.undp.org/_layouts/15/WopiFrame.aspx?sourcedoc=/UNDP_POPP_DOCUMENT_LIBRARY/Public/PSU_Contract%20Management%20Payment%20and%20Taxes_Advanced%20Payment%20Guarantee%20Form.docx&amp;action=default">https://popp.undp.org/_layouts/15/WopiFrame.aspx?sourcedoc=/UNDP_POPP_DOCUMENT_LIBRARY/Public/PSU_Contract%20Management%20Payment%20and%20Taxes_Advanced%20Payment%20Guarantee%20Form.docx&amp;action=default</a>
43. <i>Liquidated Damages</i>	43.1 If specified in BDS, UNDP shall apply Liquidated Damages resulting from the Contractor's delays or breach of its obligations as per the Contract.
44. <i>Payment Provisions</i>	44.1 Payment will be made only upon UNDP's acceptance of the work performed. The terms of payment shall be within thirty (30) days, after receipt of invoice and certification of acceptance of work issued by the proper authority in UNDP with direct supervision of the Contractor. Payment will be effected by bank transfer in the currency of contract.
45. <i>Vendor Protest</i>	45.1 UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a contract through a competitive procurement process. In the event that a Bidder believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures: <a href="http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html">http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html</a>
46. <i>Other Provisions</i>	46.1 In the event that the Bidder offers a lower price to the host Government (e.g. General Services Administration (GSA) of the federal government of the United States of America) for similar services, UNDP shall be entitled to same lower price. The UNDP General Terms and Conditions shall have precedence. 46.2 UNDP is entitled to receive the same pricing offered by the same Contractor in contracts with the United Nations and/or its Agencies. The UNDP General Terms and Conditions shall have precedence. 46.3 The United Nations has established restrictions on employment of (former) UN staff who have been involved in the procurement process as per bulletin ST/SGB/2006/15 <a href="http://www.un.org/en/ga/search/view_doc.asp?symbol=ST/SGB/2006/15&amp;referer">http://www.un.org/en/ga/search/view_doc.asp?symbol=ST/SGB/2006/15&amp;referer</a>

## SECTION 5. TERMS OF REFERENCE

<b>Title</b>	<b>Feasibility Study for increasing adoption and utilization of solar water pumping (SWP) solutions in the agriculture sector</b>
<b>Type of Contract</b>	Professional Contract for Services
<b>Start/End Dates</b>	September 2021 – December 2021
<b>Duration</b>	4 months
<b>Location</b>	Myanmar
<b>Supervisor</b>	Project Manager, Promoting the use of solar technologies for agricultural and rural development in Myanmar Project

### Background

UNDP Myanmar is currently implementing a regional project “Promoting the use of solar technologies for agricultural and rural development in Cambodia and Myanmar” with funding support from the Ministry of Agriculture, Food and Rural Affairs, Republic of Korea to strengthen resilience of the agriculture sectors in Myanmar to climate change by promoting and scaling up resilient agricultural practices, the adoption of solar technologies in irrigation and the agricultural value chain.

This project seeks to build a model for inclusive and sustainable development of rural communities in the Dry Zone by addressing the problem of (1) poor adoption of mobile technologies among rural communities, especially women, which undermines the potential of mobile communications and related information technologies as a cross-cutting means to integrate and amplify the effectiveness of development interventions; (2) weak agricultural extension services and research capacities and efficient service delivery to farmers; (3) lack of use of mobile information and communication technologies to enable access to information and to provide location-specific services for rural communities; and (4) lack of access to technology, markets, credit and energy have limited the growth of rural micro and small enterprises and excluded them from high-demand value chains. The above problems will be tackled in an integrated manner - considering both gaps in technology and systems and capacities of stakeholders and beneficiaries. In doing so, it will try to narrow the gaps between beneficiaries and service providers, including enhancing access to markets, financial services and livelihood inputs.

Lack of reliable access to water serves as a constraint on livelihoods and the development of a vibrant agriculture sector. Poor and landless farmers are particularly vulnerable to climate shocks, such as droughts and floods, and other extreme weather conditions. Lessons learned from UNDP’s projects in the Dry Zone region has found that access to water and irrigation services are vital for improving smallholder production, and reducing incidences of crop failure, and enables farmers to explore improved crop varieties and fertilizers

The project aims to increase resilience of agriculture sector to climate change through three-pronged interventions: (i) supporting the uptake of resilient agricultural practices; (ii) enhancing the agricultural value chain; and (iii) promoting and scaling up the adoption of solar technologies for water pumping and powering market facilities.

To meet the above objectives, the project will implement a set of measures that span across two key outputs.

Output 1: Increased smallholder farm productivity through adoption of innovative agricultural technology and an improved value chain; and

Output 2: Enhanced awareness, capacities, adoption and utilization of solar water pumping solutions.

Under Output 1, the project will increase smallholder farm productivity and climate resilience through the adoption of resilient and innovative agricultural practices and technology, capacity development of market

actors and extension service providers, and the establishment of technology-enabled market facilities. By doing so, the project aims to address a set of barriers related to agriculture productivity - including marketing facility to link farmer products to markets and consumers; access to agriculture inputs such as resilient seeds, farm tools and innovative technologies; agricultural market information; technical know-how to improve quality and safety agricultural products for markets; and consumer trust of the farmers to supply safe agricultural products and mechanism of labelling and certification of agriculture products. It will identify active women's groups that can be nurtured to establish agri-based micro/small/medium enterprises

In Output 2, the project will also demonstrate/promote adoption and utilization of solar water pumping (SWP) solutions in the agriculture sector with the aim of reducing vulnerabilities to climate change, increasing agricultural productivity and reducing GHG emissions. This will be done through awareness creation on SWP solutions, enhancing capacities of market actors to supply, install and maintain quality SWP solutions tailored to local conditions, and installing SWP solutions in select vulnerable communities. By doing so, the project will capacitate market actors to design, install and maintain solar water pumping systems; build trust between solar companies and groundwater drilling companies; create conditions for easy access to low-cost water storage/distribution technology and related information; and provide technical support to develop new business models and innovate SWP solutions.

UNDP Myanmar seeks the services of a Service Provider to support the implementation of Output 2 related activities. The project activities will be implemented in Myingyan and Nyaung U townships which have about 130 villages and build on the achievements of the earlier UNDP project titled "Addressing Climate Change Risks on Water Resources and Food Security in the Dry Zone of Myanmar" funded by the Adaptation Fund, and Sustainable Enterprises and Agricultural Development (SEAD) Initiative co-funded by Ooredoo and UNDP. The primary reason for this is to ensure the impacts of interventions are substantive and not diluted by spreading them too thinly.

## **II. Objective of the Assignment**

The objective of the assignment is to demonstrate/promote adoption and utilization of solar water pumping (SWP) solutions in the agriculture sector with the aim of reducing vulnerabilities to climate change, increasing agricultural productivity and reducing GHG emissions. This will be done through awareness creation on SWP solutions, enhancing capacities of market actors to supply, install and maintain quality SWP solutions tailored to local conditions, and installing SWP solutions in select vulnerable communities.

## **III. Scope of Work, Outputs and Deliverables**

To be able to achieve the objective of the project, the following outputs are expected to be achieved - along with detailed tasks that will have to be undertaken by the Service Provider. In close consultation with UNDP, the Service Provider will undertake the following:

Prepare a research report on application of solar water pumping (SWP) system in the international arena and regional level by comparing Myanmar context. Recommend alternative water storage technologies to lower overall systems costs to be discovered, and innovative business model(s) of solar water pumping system suitable for the Dry Zone of Myanmar.

Conduct feasibility study of installation of up to 5 KW SWP for irrigation and drinking water through site visits in targeted townships in Dry Zone. Consultation with different stakeholders in the village, township level and regional level (if necessary) to ensure technically sound, long term sustainability and efficient supply of water to the target community.

Based on the feasibility study, identify at least 30 sites with 20-30 communities for the installation of SWP system mainly focusing on irrigation and drinking water in target area. It must include analysis of water availability for irrigation during all the season specifically during dry season, proposed area of land for irrigation (including length of irrigation channel from the pumping water point), number of farmers benefiting & parcel of land of each farmer, water allocation/utilisation calculation to all the farms requiring water, business model for the operation of the SWP by the community (user group model), design of solar water pumping system, detailed specification of the system and the proper layout of proposed areas. Seasonal variability of ground water and irrigation water including impact of arsenic-contamination of ground water

should be taken into consideration. Testing of the water needs to be conducted for each site finalised for arsenic or any other contamination which is harmful for drinking or irrigation.

Prepare training manual and conduct hand on training to the local technicians, engineers, local beneficiaries to design, install and maintain SWP System. Female participants shall be included. Participants shall be from targeted communities to ensure effective operation and maintenance on SWP in their villages. Also prepare the manual to form the solar water pump user group (SWPUG) about the operation and the business model (cost sharing, replacement of parts, security of SWP, timeline).

Prepare tailored information materials on SWP system that can be disseminated among stakeholders for the awareness of usage of SWP system. Such material shall include cost benefit analysis and resource efficiency in both English and Myanmar.

#### IV. Expected Outputs and Deliverables

The following deliverables need to be provided during and at the end of the prescribed period of duration.
