Background

UNDP Country Programme (CP) (2018-2022) for Papua New Guinea focuses on three pillars: Peace: promoting inclusive governance, justice and peace; Prosperity: inclusive and sustainable growth; Planet: sustainable management of natural resources, biodiversity conservation, strengthened climate and disaster resilience. Throughout its programming, UNDP prioritizes those who are affected by and vulnerable to crisis, poverty, and climate change especially rural communities, as well as fighting gender-based violence and targeting women and other vulnerable populations for skills development and access to basic services to combat high rates of gender inequality.

The Country Programme (CP) evaluation will focus on the formal UNDP country programme approved by the Executive Board. The scope of the CP evaluation includes the entirety of UNDP's activities at the outcome and output levels from 2018 to date. The evaluation covers interventions funded by all sources, including core UNDP resources, donor funds and government funds (non-core resources). In this end-of-cycle evaluation, a special focus will be given to assess contributions made toward Gender mainstreaming, youth inclusion, women empowerment and human rights. The end-of-cycle evaluation will be forward-looking whereby drawing lessons from the current CP and proposing recommendations for the next CP (2023-2027).

The evaluation is expected to use a variety of data sources, primary, secondary, qualitative, quantitative, etc. to be extracted through surveys, storytelling, focus group discussions, face to face interviews, participatory methods, desk reviews, etc. conducted with a variety of partners. A transparent and participatory multi-stakeholder approach should be followed for data collection from government partners, community members, private sector, UN agencies, multilateral organizations, etc.

Objectives:

This evaluation will assess UNDP's contribution and performance in supporting the national development and priorities under the approved Country Programme Document (CPD). The evaluation will serve as an important accountability function, providing national stakeholders and partners in Papua New Guinea with an impartial assessment of the results of UNDP support. Besides providing evidence of the relevance, effectiveness, efficiency and sustainability of the current programme, this end-of-cycle evaluation, considering results of previous CP (2013-2017) and recommendations of Assessment of Development Results (ADR) 2016, will also assess impact of current CP which will greatly facilitate identifying lessons learnt and providing guidance in the development of new CP (2023-2027).
