A. Technical specifications for Goods and Comparative Data Table

- The minimum technical requirements are provided in **Section III** returnable bidding form.
- The Bidder shall complete **Section III** returnable bidding form and submit along with the bid. The bidder shall provide the product catalog indicating the offered product name, catalogue number, product photos and related product information.

Remarks-

Standards for workmanship, process, material, and equipment, as well as references to brand names or catalogue numbers, if any, specified by the Purchaser in the Schedule of Requirements, are intended to be descriptive only and not restrictive.

The Bidder may offer other standards of quality, brand names, and/or catalogue numbers and products with minor deviations from specs provided that it demonstrates, to the Purchaser's satisfaction, that the product offered ensure substantial equivalence or are superior in performance to those specified in the Schedule of Requirements.

Quality standards requirement:

The product shall comply with UNOPS QA policy, as applicable, which can be seen at the link:
https://content.unops.org/service-Line-Documents/Procurement/UNOPS-Procurement-Manual-Annex-2-2021_EN.pdf

Hence,

The Quality Management system of the manufacturer of the offered product under each lot must be certified against the requirements of ISO 13485 or 9001 as applicable or the quality management system of one of the founding members of GHTF.

Bidders shall enclose the copies of such certification for the offered product along with the submission.

Registration of products in Tuvalu is not a requirement and UNOPS will import products based on tax exemption and importation permit issued by the Government.

Packaging and Labelling Specifications

- a) Should be standard as per the regulations applicable.
- b) Special packaging and notification is required for easily breakable material.
- c) All Labelling and packaging inserts shall be in English.
- d) Should be strong enough for transport and to resist any mishandling.

Quality Control:

On reception, in case of the detection of a defective product either in the quality of a product or in any other aspects such as packaging, the Supplier will be requested to replace the complete batch at its own cost including removal, shipping and destruction of the defective product as appropriate.

Defect:

On reception, in case of the detection of a defective product either in the quality of a product or in any other aspects such as packaging, the Supplier will be requested to replace the complete batch at its own cost.

Complaints:

Any complaint from UNOPS or its Sub-Recipients will be handled by the Supplier according to its internal standard operating procedures, and pursuant to the provisions relating to provisions as set out in the General Conditions.

B. Delivery requirements and Comparative Data Table:
