Closing Date: **Wednesday, 24 August, 2022, 16:00 pm GENEVA TIME**

**THE UNITED NATIONS CHILDREN'S FUND (UNICEF)**

Wishes to invite you to submit a proposal for the provision of:

Technical support in Risk Communication and Community Engagement (RCCE) Monitoring and Evaluation to the Collective Service

Proposals must be submitted via the UNICEF Web Bidding Tool:

<https://ungm.in-tend.co.uk/unicef-pfp/asp/Home>

UNICEF seeks proposals from qualified institutional/corporate entities to establish a contract for the provision of Technical support in Risk Communication and Community Engagement (RCCE) Monitoring and Evaluation to the Collective Service. The Collective Service is a collaborative partnership between UNICEF, WHO and IFRC with support from the Global Outbreak Alert and Response Network (GOARN), and key stakeholders from the public health and humanitarian sectors. The Collective Service aims to deliver the structures and mechanisms required for a coordinated community-centred approach that is embedded across public health, humanitarian, and development response efforts. This ensures that expert driven, collaborative, consistent and localised RCCE support reaches governments and partners involved in the national response to COVID-19 and beyond.

Following reviews conducted by the leading agencies of the Collective Service which noted limited capacity in RCCE M&E support at global, regional and country level, the Collective Service is looking for an experienced service provider to provide RCCE M&E support for Collective Service partners at global, regional, national and local levels. The M&E support of the service provider will be based on three pillars of work.

- A. Support the coordination of RCCE M&E activities within the Collective Service
- B. Technical Guidance: Support Investment in RCCE M&E and support countries in the conduct of RCCE M&E
- C. Provide technical support to countries in the application of Collective Service RCCE M&E resources, including the roll-out of the RCCE Interim Indicator Guidance

The profile of the desired Service Provider must include extensive experience in M&E, emergency response experience, and community engagement experience, including support for M&E design and implementation, capacity building, data analysis, and institutional learning. The service provider should also have a relevant M&E footprint at the country level and demonstrate previous experience in support work in humanitarian settings, ideally in the global south, or the capacity to articulate with regional or local partners connected to the countries' realities.

***Should your company be qualified and interested in this bidding opportunity, please register in the UNICEF-PFP e-tendering system to access the complete RFP package - please follow the registration procedure attached to this notification.***
