Introduction

Several of United Nations (UN) Agencies including United Nations Development Programme (UNDP), United Nations Entity for Gender Equality and Empowerment of Women (UN Women), United Nations Capital Development Fund (UNCDF), United Nations Volunteers (UNV), have partnered together to use a unified new ERP system from Oracle Cloud that includes a supplier portal that will manage interaction with suppliers for solicitation process and contract management. This document is intended for any supplier who wishes to do business with any of the aforementioned UN Agencies (Partner Agencies) and to serve as a guide on how to use the online portal system.

In the initial phase during 2021, the new portal will function in parallel with existing systems of Partner Agencies and will be utilized only for specific tender processes from select Offices. Therefore, suppliers need to register and use Oracle Portal only for the specific tender opportunities which are managed via the Oracle portal. During this initial period, the Partner Agencies will continue using existing online tendering systems, such as ATLAS eTendering, InTend, etc. Suppliers need to use profiles of those systems (or register one if needed) to participate in tenders managed in the other platforms.

[Click to return to TOC](#)

This guide is organized in several sections that correspond to different functions of the Supplier Portal such as registration, submitting bids, maintaining profile, etc.

The Table of Contents (TOC) provides an overview of the document content. It contains hyperlinks to the exact page of the content in the document so the reader can navigate directly to the relevant section. Each section starts with a brief overview of the content of that section with hyperlinks.

Throughout the document, there are three types of hyperlinks:

- Hyperlink buttons that will take reader to the main TOC, found at the top right corner of each main chapter page, such as the one on this page.
- Hyperlinks that take readers to the beginning of the current section, usually found at the bottom left corner like in this page.
- Hyperlinked words that take reader directly to a location of the document related to the text. For example, by clicking on the [hyperlinked TOC here](#), the reader can go directly to the TOC page of this document.

1.2 What is Supplier Portal?

The Supplier Portal module is designed to facilitate Supplier interactions during tender process and later for contract management. The system aims to enhance the integrity and transparency of the procurement process and enables the streamlining of the processes: Suppliers can use online portal to view solicitation documents, submit their bids, communicate with procurement office, etc.

The Supplier Portal system addresses UN's fundamental procurement values, such as **fairness**, **integrity**, **transparency** and **accountability**.

Some of the main benefits of the system are:

- ✓ **No late submissions are accepted:** The system will automatically not accept any bid after the deadline.
- ✓ **Electronic sealed bids:** The system encrypts the bids submitted in the system and does not allow anyone to view any information provided before the bidding deadline.
- ✓ **Electronic stamping of the bids:** The system stamps all information submitted by suppliers and prevents anyone from altering, deleting, or adding anything to the bid after the deadline for submission.
- ✓ **Streamlines the bidding process:** Suppliers can register in the system, retrieve all information and solicitation documents, submit their bid online, edit it directly in the system, and receive automatic notifications once the evaluation is finalized and the contract is awarded.
- ✓ **Provides an audit trail:** As the Supplier Portal system records all activity in the system, it keeps an audit trail for increased accountability and transparency.

For assistance, please contact the procurement focal point managing the tender you are interested to participate.

If the Supplier profile was successfully created, you should receive a second e-mail generated from the system. A notification box states 'ACTION REQUIRED: You are Invited to Participate for the Negotiation'. Below this is a search bar and a table of negotiations. The table has columns: Negotiation, Title, Ne Ty, Bu, Sup Site, Time Remaining, Close Date, All Responses, Your Responses, Will Participate, and Monit. The first row shows 'UNDP-IQ-00091,1' for 'IT Equipment for CO Iraq'. On the right, a dropdown menu for 'Actions' is open, showing 'Accept Invitation' and 'Decline Invitation' options (also highlighted with a red box).

It is very important to subscribe to an ongoing negotiation that you are interested to participate. This is the only way to receive automatic e-mail notifications with the information on any changes related to that tender.

To decline the invitation select the option "Decline Invitation" in the same dropdown menu.

3.2 Participate in Tender –Key Components of an online Bid

In order to submit a bid in the supplier portal, suppliers are usually required to complete the following 3 key processes:

- [Answer the questions in the **Requirements** section and upload supporting documents](#)
- [Insert unit prices for the items required.](#)
- [Validate and submit the bid response](#)

Follow the instructions in the guide to complete your bid.

Use the **Save/Save and close** function to save the progress of your bid response. After some time of inactivity, the system times out and you may lose any unsaved changes to your bid. Therefore, use frequently the Save function.

3.2 Prepare Bid Response – Provide responses in the Requirements Section

Suppliers will be prompted to answer negotiation questions (Requirements) that will be used in the final evaluation and awarding of the tender. The questions may vary by the type of response that is required. Some will require a “yes/no” response, others may require typed/textual answers, or numerical input. Please read each question carefully before submitting your response
