## 1. INTRODUCTION

### 1.1 Objective of the RFP

The purpose of this Request for Proposals (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable Contractor to carry out the following work: Preparing the background materials and facilitating the WHO Global Summit on PPH to be held in March 2023 in Dubai.

WHO is an Organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are, therefore, requested to propose the best and most cost-effective solution to meet WHO requirements, while ensuring a high level of service.

### 1.2 About WHO

#### 1.2.1 WHO Mission Statement

The World Health Organization was established in 1948 as a specialized agency of the United Nations. The objective of WHO ([www.who.int](http://www.who.int)) is the attainment by all peoples of the highest possible level of health. "Health", as defined in the WHO Constitution, is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. WHO's main function is to act as the directing and coordinating authority on international health work.

#### 1.2.2 Structure of WHO

The World Health Assembly (WHA) is the main governing body of WHO. It generally meets in Geneva in May of each year and is composed of delegations representing all 194 Member States. Its main function is to determine the policies of the Organization. In addition to its public health functions, the Health Assembly appoints the Director-General, supervises the financial policies of the Organization, and reviews and approves the proposed programme budget. It also considers reports of the WHO Executive Board, which it instructs with regard to matters upon which further action, study, investigation or report may be required.

The Executive Board is composed of 34 members elected for three-year terms. The main functions of the Board are to give effect to the decisions and policies of the WHA, to advise it and generally to facilitate its work. The Board normally meets twice a year; one meeting is usually in January, and the second is in May, following the World Health Assembly.

The WHO Secretariat consists of some 8,400 staff at the Organization's headquarters in Geneva, in the six regional offices and in countries. The Secretariat is headed by the Director-General, who is appointed by the WHA on the nomination of the Executive Board. The head of each regional office is a Regional Director. Regional directors are appointed by the Executive Board in agreement with the relevant regional committee.

## 2. BACKGROUND

Description of the existing activities **currently** undertaken by WHO/HQ/UHL/SRH/MPH, i.e. prior to the publication of this Request for Proposals, and related to its objectives.

### 2.1 Overview

#### **Postpartum haemorrhage (PPH): a global public health concern**

Severe bleeding after childbirth - postpartum haemorrhage (PPH) - is the leading cause of maternal mortality world-wide. Each year, about 14 million women experience PPH resulting in about 70,000 maternal deaths globally. Even when women survive, they often need urgent surgical interventions to control the bleeding and may be left with life-long reproductive disability.

#### **Why is a PPH Summit needed and why now?**

Despite the ambition to end preventable maternal deaths by 2030, several countries are not on track to meet their SDG-3 maternal mortality targets. From discovery science to identify new innovations through to implementation of existing proven interventions, limited progress has been made in the field of PPH care over the last decade. Few attempts are being made to overcome the challenges faced by available PPH medicines that are widely embedded in clinical practice. Individual and health-system level interventions that have significantly reduced PPH-related morbidities and deaths in high-income countries continue to elude health systems of low-income countries as they have not been or cannot be implemented at scale.

While international developmental partners tend to have similar objectives regarding PPH priorities, efforts are often misaligned because of a lack of cohesive coordination at the global and country levels, as well as a lack of end-to-end thinking as it pertains to product development, introduction, and impact assessment. Academic researchers and innovators in industry often do not know what type of evidence to generate and how to connect evidence to policy decision-making, leading to a lot of research waste, and a painfully slow process of translating research ideas to clinical impact at the patient level. Likewise, target product profiles [TPP] have not generally been described prior to R & D of PPH interventions, and the concept of target policy profiles [TPop] (to identify key research questions to support policy changes at the point of evidence generation and dissemination) is relatively new to those who make research funding decisions. In short, there is no clarity on what is in the pipeline regarding PPH products or interventions, or on what an ideal future PPH products or policy requirements should look like.

In recognition of the need for global action to improve the quality of PPH care, WHO/HRP will convene a PPH Summit to bring together all relevant stakeholders to review and prioritize the most urgent PPH priorities to fast-track progress towards SDG 3.1 target in terms of research, guidelines, advocacy, and country-level implementation. The Summit will provide a forum for researchers, industry, policymakers, funders, intergovernmental organizations, non-governmental organizations, and international organizations to engage in discussions on PPH care, and agree on concrete steps that will shape PPH future in the short, medium- and longer term. The Summit will serve as the launching pad for a focused global initiative that could substantially alleviate the suffering of women from PPH and move the world closer to achieving 2030 SDG 3.1 target, in line with the WHO's thirteenth General Programme of Work (GPW-13). Through this Summit, WHO/HRP will catalyze alignments among experts and promote collaborations and coalitions across different organizations working to reduce the burden of PPH and its consequences in LMICs.

### 3.3 Work to be performed

The goal of the Summit is to identify the highest priorities and address gaps accounting for severe morbidity and excess maternal deaths from PPH globally. The main objective of the Summit is to bring together 100-120 stakeholders – from researchers to policy makers to implementers – to define comprehensive priority research, normative, implementation, and advocacy agendas for improving PPH care and outcomes globally, with special emphasis on low- and middle-income countries.

The Summit will focus on identifying solutions and catalysing action to resolve the lingering solutions to the lingering challenges in the PPH space (outcomes) through several background activities that will be coordinated and implemented by WHO/HRP and the contractor. The Summit will help create enabling conditions at the global and country levels and catalyze actions to reduce the burden of PPH in high-burden countries and regions.

#### 3.3.1 Key requirements

This RFP calls for bidders to prepare background materials for the WHO PPH Summit, synthesize scientific input from Summit Steering Committee and large reference group that includes Summit participants and facilitate the execution of the convening. The inputs during the preparatory work and deliberations during the convening are aimed to contribute towards a WHO global consensus-based road map and call to action that will shape the future of PPH research (from discovery science through post-marketing surveillance of PPH products/interventions), as well as global and country-level normative, implementation and advocacy activities to reduce the burden of PPH in LMICs.

The specific objectives of the Summit are to:

- Identify and prioritize key PPH research gaps and challenges to address PPH burden and complications in the short, medium, and longer terms
- Share innovation pathways and evidence requirements and procedures for global and national policy changes for PPH management
- Review progress in R & D for PPH products in the pipeline and agree on their pathways to policy changes, implementation at scale, and impact
- Identify target product profile (TPP) and target policy profile (TPoP) priorities related to PPH
- Identify effective strategies to strengthen national health systems towards ensuring equitable and sustainable access to proven PPH interventions
- Facilitate networking and building of strong collaborations and coalitions among key stakeholders – academic researchers, industry experts, policy developers, donors, implementers, policy makers, NGOs, and civil societies
- Identify key components of a WHO-sponsored Call-for-Action and boosted funding streams to combat PPH.

The specific activities and products for the bidder to help achieve the objectives include the following:

- Synthesize analytical inputs from external experts and reference groups in consultation with the Steering Committee and WHO Secretariat to provide a clear view on gaps and opportunities for PPH management in LMICs
- Circulate fact base to stakeholders for obtaining feedback (Steering Committee, reference groups, and Summit participants) and revise accordingly in consultation with the Steering Committee and WHO Secretariat

- Align on expected outcomes for the Summit and co-develop in consultation with the Steering Committee and WHO Secretariat the Summit agenda
- Coordinate development of critical materials in consultation with the Steering Committee and WHO Secretariat including – summary of analytical fact base, landscaping analysis of PPH medicines and devices, initial Target Product Profiles, Target Policy Profiles, high-burden country case studies & testimonials
- Finalize and circulate the agenda, create supporting materials, briefing speakers and coordinate with Summit logistics team
- Prepare and socialize critical inputs from stakeholders with donors to identify indicative potential pledges to boost funding streams, and build coalitions to execute the RoadMap after the Summit
- Attendance to the Summit and preparatory on site logistics coordination from the 5 until the 11 March 2023 for key staff members (travel will be organized and sponsored separately from this bid by the Bill and Melinda Gates Foundation for up to 3 staff members)
- Facilitate Summit sessions and breakouts as needed in consultation with the Steering Committee and WHO Secretariat for the duration of the Summit

### 5.1 Opening of Proposals

After the closing date for submission of proposals, WHO will open the technical proposals that were received in a timely manner.

In a second and later stage, only the financial proposals of those bids which have achieved the minimum technical threshold according to the evaluation process of section 5.4 will be opened and evaluated.

There will be no public bid opening.

### 5.2 Clarification of Proposals

WHO may, at its discretion, ask any bidder for clarification of any part of its proposal. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

### 5.3 Preliminary Examination of Proposals

WHO will examine the proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the proposals are generally in order. **Technical proposals found to contain financial bid or pricing information will be rejected.** Proposals which are not in order as aforesaid may be rejected.

**Please note that WHO is not bound to select any bidder and may reject all proposals.** Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to WHO's general principles, including economy and efficiency, WHO does not bind itself in any way to select the bidder offering the lowest price.

### 5.4 Evaluation of Proposals

Following the preliminary examination of proposals as per section 5.3, a two-stage procedure will be implemented, with the evaluation of the technical proposal being completed prior to the evaluation of the financial proposal.

The evaluation panel will evaluate the technical merits of all the proposals which have passed the Preliminary Examination of proposals based on the following weighting:

|                      |                          |
|----------------------|--------------------------|
| Technical Weighting: | 80 % of total evaluation |
| Financial Weighting: | 20 % of total evaluation |

#### 5.4.1 Technical Evaluation

The technical evaluation of the proposals will include:

- the extent to which WHO's requirements and expectations have been satisfactorily addressed;

- the quality of the overall proposal;
- the appropriateness of the proposed approach;
- the quality of the technical solution proposed;
- the manner in which it is proposed to manage and staff the project;
- the experience of the firm in carrying out related projects;
- the qualifications and competence of the personnel proposed for the assignment;
- the proposed timeframe for the project ; and
- the presentation performance.

The number of points which can be obtained for each evaluation criterion is specified below and indicates the relative significance or weight of the item in the overall evaluation process.

**A minimum of 70 points is required to pass the technical evaluation.**

|  |            |
|--|------------|
| Quality of the overall proposal  | 30         |

| Experience of the firm in carrying out related project   | 20         |
| Qualifications and competence of the personnel proposed for the assignment   | 20         |
| Presentation performance   | 17         |
| To what degree does the bidder demonstrate its commitment to embed sustainability into its own operations (as defined by social, environmental and economic considerations as indicated in <b>Appendix 1</b> | 3          |
| <b>TOTAL</b>   | <b>100</b> |

The scoring scale per criteria was defined as follows:

| Criteria evaluated as: | Based on the following supporting evidence:                               | Corresponds to the score of: |
|------------------------|---|------------------------------|
| Excellent              | Excellent evidence of ability to exceed requirements                      | 100%                         |
| Good                   | Good evidence of ability to exceed requirements                           | 90%                          |
| Satisfactory           | Satisfactory evidence of ability to support requirements                  | 70%                          |
| Poor                   | Marginally acceptable or weak evidence of ability to support requirements | 40%                          |
| Very Poor              | Lack of evidence to demonstrate ability to comply with requirements       | 10%                          |

The formula for the rating of the proposals will be as follows:

**Rating the Technical Proposal (TP):**

TP Rating = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100

**Rating the Financial Proposal (FP):**

FP Rating = (Lowest Priced or Cost Offer / Price or Cost of the Offer Being Evaluated) x 100

**Total Combined Score:**

(TP Rating) x (Weight of TP, e.g., 70%) + (FP Rating) x (Weight of FP, e.g., 30%) = Total Combined and Final Rating of the Proposal

#### 5.4.2 Financial Evaluation

Financial proposals shall remain sealed until the completion of the technical evaluation. During the financial evaluation, only the price proposals of those bids which have achieved the minimum technical threshold according to the evaluation process described in section 5.4.1 will be opened and compared.

---

#### 5.5 Bidders' Presentations

WHO may, during the evaluation period, at its discretion, invite selected bidders to supply additional information on the contents of their proposal (at such bidders' own cost). Such bidders will be asked to give a presentation of their proposal (possibly with an emphasis on a topic of WHO's choice) followed by a "question and answer" session. If required, the presentation will be held at WHO's office, or by tele/videoconference.

NOTE: Other presentations and any other individual contact between WHO and bidders is expressly prohibited both before and after the closing date for submission of proposals.

At any time during the evaluation/selection process, WHO reserves the right to modify the scope of the work, services and/or goods called for under this RFP. WHO shall notify the change to only those bidders who have not been officially eliminated due to technical reasons at that point in time.

### 6.3 WHO's Right to Extend/Revise Scope or Requirements at Time of Award

### 6.5 Signing of the Contract

Within 30 days of receipt of the contract, the successful bidder shall sign and date the contract and return it to WHO according to the instructions provided at that time. If the bidder does not accept

"Best value for money" means the responsive offer that is the best combination of technical specifications, quality and price; and
- consistent with section 7.3 (Audit, and Investigations), all financial reports shall be subject to audit by or on behalf of WHO, including examination of supporting documentation and relevant accounting entries in the Contractor's books. ## 7.1 Conditions of Contract

Any and all of the Contractor's (general and/or special) conditions of contract are hereby explicitly excluded from the Contract, i.e., regardless of whether such conditions are included in the Contractor's offer, or printed or referred to on the Contractor's letterhead, invoices and/or other material, documentation or communications.

Such termination shall be subject to payment of an equitable part of the Contract sum and/or other reasonable charges. In the event of such termination, the Contractor shall, in accordance with the ownership rights referred to in section 7.17 (Title Rights), deliver to WHO all work products and other materials so far produced.

In the event of and as soon as possible after the occurrence of any cause constituting force majeure, the Contractor shall give notice and full particulars in writing to WHO, of such occurrence or change if the Contractor is thereby rendered unable, wholly or in part, to perform its obligations and meet its responsibilities under the Contract. The Contractor shall also notify WHO of any other changes in conditions or the occurrence of any event which interferes or threatens to interfere with its performance of the Contract. The notice shall include steps proposed by the Contractor to be taken including any reasonable alternative means for performance that is not prevented by force majeure. On receipt of the notice required under this section, WHO shall take such action as it, in its sole discretion, considers to be appropriate or necessary in the circumstances, including the granting to the Contractor of a reasonable extension of time in which to perform its obligations under the Contract.

---

## 7.20 Surviving Provisions

Those rights and obligations of the Parties as set forth in sections 7 and 8 that are intended by their nature to survive the expiration or earlier termination of the Contract shall survive indefinitely. This includes, **but is expressly not limited to**, any provisions relating to WHO's right to financial and operational audit, conditions of contract, warranties, legal status and relationship between the parties, breach, liability, indemnification, subcontracting, confidentiality, title rights, use of the WHO name and emblem, successors and assignees, insurance and liabilities to third parties, settlement of disputes, observance of laws, privileges and immunities, no terrorism or corruption, foreign nationals and compliance with WHO policies.

### 7.22 Publication of Contract

Subject to considerations of confidentiality, WHO may acknowledge the existence of the Contract to the public and publish and/or otherwise publicly disclose the Contractor's name and country of incorporation, general information with respect to the work described herein and the Contract value. ### 7.23 Successors and Assignees

The Contract shall be binding upon the successors and assignees of the Contractor and the Contract shall be deemed to include the Contractor's successors and assignees, provided, however, that nothing in the Contract shall permit any assignment without the prior written approval of WHO.

---

### 7.24 Payment

Payment will be made against presentation of an invoice in a UN convertible currency (preferably US Dollars) in accordance with the payment schedule contained in the Contract, subject to satisfactory performance of the work. The price shall reflect any tax exemption to which WHO may be entitled by reason of the immunity it enjoys. WHO is, as a general rule, exempt from all direct taxes, custom duties and the like, and the Contractor will consult with WHO so as to avoid the imposition of such charges with respect to this contract and the goods supplied and/or services rendered hereunder. As regards excise duties and other taxes imposed on the sale of goods or services (e.g. VAT), the Contractor agrees to verify in consultation with WHO whether in the country where the VAT would be payable, WHO is exempt from such VAT at the source, or entitled to claim reimbursement thereof. If WHO is exempt from VAT, this shall be indicated on the invoice, whereas if WHO can claim reimbursement thereof, the Contractor agrees to list such charges on its invoices as a separate item and, to the extent required, cooperate with WHO to enable reimbursement thereof.

---

### 7.25 Title to Equipment

Title to any equipment and supplies that may be furnished by WHO shall remain with WHO and any such equipment shall be returned to WHO at the conclusion of the Contract or when no longer needed by the Contractor. Such equipment, when returned to WHO, shall be in the same condition as when delivered to the Contractor, subject to normal wear and tear. The Contractor shall be liable to compensate WHO for equipment determined to be damaged or degraded beyond normal wear and tear.

Except for the workmen's compensation insurance, the insurance policies under this section shall:

- a) Name WHO as additional insured;
- b) Include a waiver of subrogation to the insurance carrier of the Contractor's rights against WHO;

The Contractor shall, upon request, provide WHO with satisfactory evidence of the insurance required under this section.

Any dispute relating to the interpretation or application of the Contract shall, unless amicably settled, be subject to conciliation. In the event of failure of the latter, the dispute shall be settled by arbitration. The arbitration shall be conducted in accordance with the modalities to be agreed upon by the parties or, in the absence of agreement, with the rules of arbitration of the International Chamber of Commerce. The parties shall accept the arbitral award as final.

---

## 7.28 Authority to Modify

No modification or change of the Contract, no waiver of any of its provisions or any additional contractual relationship of any kind shall be valid and enforceable unless signed by a duly authorized representative of both parties.

---

## 7.29 Privileges and Immunities

Nothing in or relating to the Contract shall be construed as a waiver of any of the privileges and immunities enjoyed by WHO under national or international law, and/or as submitting WHO to any national court jurisdiction.

---

The Contractor warrants for the entire duration of the Contract that:

(i) it is not and shall not be involved in, or associated with, any person or entity associated with terrorism, as designated by any UN Security Council sanctions regime, that it shall not make any payment or provide any other support to any such person or entity and that it shall not enter into any employment or other contractual relationship with any such person or entity;

(iv) it shall promptly report to WHO, through the WHO Integrity Hotline or directly to the WHO Office of Internal Oversight Services (IOS), any credible allegations of actual or suspected fraudulent or corrupt practices, as defined in the WHO Policy on Prevention, Detection and Response to Fraud and Corruption of which the Contractor becomes aware and respond to such allegations in an appropriate and timely manner in accordance with its respective rules, regulations, policies and procedures. Furthermore, the Contractor agrees to cooperate with WHO and/or parties authorized by WHO in relation to the response. Relevant information on the nature of any credible allegations of such actual or suspected violations, as well as the details of the intended response and the outcome of any such response, should be communicated and coordinated with WHO, with the understanding that, subject to the terms of the WHO Policy on Prevention, Detection and Response to Fraud and Corruption, confidentiality and the due process rights of those involved will be respected.

In this regard, the Contractor shall also ensure that neither the Contractor nor its partners, subcontractors, agents or employees will engage in activities involving child labour, trafficking in arms, promotion of tobacco or other unhealthy behaviour, sexual exploitation and abuse, sexual harassment or any other type of abusive conduct.

---

### 7.32 Officials not to Benefit

The Contractor warrants that no official of WHO has received or will be offered by the Contractor any direct or indirect benefit arising from the Contract or the award thereof.

---

### 7.33 Compliance with WHO Codes and Policies

By entering into the Contract, the Contractor acknowledges that it has read, and hereby accepts and agrees to comply with, the WHO Policies (as defined below).

In connection with the foregoing, the Contractor shall take appropriate measures to prevent and respond to any violations of the standards of conduct, as described in the WHO Policies, by its employees and any other natural or legal persons engaged or otherwise utilized to perform any services under the Contract.

Without limiting the foregoing, the Contractor shall promptly report to WHO, in accordance with the terms of the applicable WHO Policies, any actual or suspected violations of any WHO Policies of which the Contractor becomes aware.

### 7.34 Zero tolerance for sexual exploitation and abuse, sexual harassment and other types of abusive conduct

WHO has zero tolerance towards sexual exploitation and abuse, sexual harassment and other types of abusive conduct. In this regard, and without limiting any other provisions contained herein, the Contractor warrants that it shall: (i) take all reasonable and appropriate measures to prevent sexual exploitation or abuse as described in the WHO Policy Directive on Protection from sexual exploitation and sexual abuse (SEA), and/or sexual harassment and other types of abusive conduct as described in the WHO Policy on Preventing and Addressing Abusive Conduct by any of its employees and any other natural or legal persons engaged or otherwise utilized to perform any work under the Contract; and (ii) promptly report to WHO and respond to, in accordance with the terms of the respective Policies, any actual or suspected violations of either Policy of which the Contractor becomes aware.

---

### 7.35 Tobacco/Arms Related Disclosure Statement

The Contractor may be required to disclose relationships it may have with the tobacco and/or arms industry through completion of the WHO Tobacco/Arms Disclosure Statement. In the event WHO requires completion of this Statement, the Contractor undertakes not to permit work on the Contract to commence, until WHO has assessed the disclosed information and confirmed to the Contractor in writing that the work can commence.

---

### 7.36 Compliance with applicable laws, etc.

The Contractor shall comply with all laws, ordinances, rules, and regulations bearing upon the performance of its obligations under the terms of the Contract. Without limiting the foregoing or any other provision of these General and Contractual Conditions, the Contractor shall at all times comply with and ensure that each of its partners, subcontractors and their employees and agents comply with, any applicable laws and regulations, and with all WHO policies and reasonable written directions and procedures from WHO relating to: (i) occupational health and safety, (ii) security and administrative requirements, including, but not limited to computer network security procedures, (iii) sexual exploitation and abuse, sexual harassment or any other types of abusive conduct, (iv) privacy, (v) general business conduct and disclosure, (vi) conflicts of interest and (vii) business working hours and official holidays.

- (i) terminate the Contract, and/or any other contract concluded by WHO with the Contractor, immediately upon written notice to the Contractor, without any liability for termination charges or any other liability of any kind; and/or
- (ii) exclude the Contractor from participating in any ongoing or future tenders and/or entering into any future contractual or collaborative relationships with WHO.

WHO shall be entitled to report any violation of such provisions to WHO's governing bodies, other UN agencies, and/or donors.

## 8. PERSONNEL

### 8.1 Approval of Contractor Personnel

WHO reserves the right to approve any employee, subcontractor or agent furnished by the Contractor and Contractor's consortium partners for the performance of the work under the Contract (hereinafter jointly referred to as "Contractor Personnel"). All Contractor Personnel must have appropriate qualifications, skills, and levels of experience and otherwise be adequately trained to perform the work. WHO reserves the right to undertake an interview process as part of the approval of Contractor Personnel.

The Contractor acknowledges that the qualifications, skills and experience of the Contractor Personnel proposed to be assigned to the project are material elements in WHO's engaging the Contractor for the project. Therefore, in order to ensure timely and cohesive completion of the project, both parties intend that Personnel initially assigned to the project continue through to project completion. Once an individual has been approved and assigned to the project, such individual will not, in principle, thereafter be taken off the project by the Contractor, or reassigned by the Contractor to other duties. Circumstances may arise, however, which necessitate that Personnel be substituted in the course of the work, e.g. in the event of promotions, termination of employment, sickness, vacation or other similar circumstances, at which time a replacement with comparable qualifications, skills and experience may be assigned to the project, subject to approval of WHO.

WHO may refuse access to or require replacement of any Contractor Personnel if such individual renders, in the sole judgment of WHO, inadequate or unacceptable performance, or if for any other reason WHO finds that such individual does not meet his/her security or responsibility requirements. The Contractor shall replace such an individual within fifteen (15) business days of receipt of written notice from WHO. The replacement will have the required qualifications, skills and experience and will be billed at a rate that is equal to or less than the rate of the individual being replaced.

### 8.2 Project Managers

Each party shall appoint a qualified project manager ("Project Manager") who shall serve as such party's primary liaison throughout the course of the project. The Project Manager shall be authorized by the respective party to answer all questions posed by the other party and convey all decisions made by such party during the course of the project and the other party shall be entitled to rely on such information as conveyed by the Project Manager.

The Project Managers shall meet on a monthly basis in order to review the status of the project and provide WHO with reports. Such reports shall include detailed time distribution information in the form requested by WHO and shall cover problems, meetings, progress and status against the implementation timetable.

### 8.3 Foreign Nationals

The Contractor shall verify that all Contractor Personnel is legally entitled to work in the country or countries where the work is to be carried out. WHO reserves the right to request the Contractor to provide WHO with adequate documentary evidence attesting this for each Contractor Personnel.

Each party hereby represents that it does not discriminate against individuals on the basis of race, gender, creed, national origin, or citizenship.

---

#### 8.4 Engagement of Third Parties and use of In-house Resources

The Contractor acknowledges that WHO may elect to engage third parties to participate in or oversee certain aspects of the project and that WHO may elect to use its in-house resources for the performance of certain aspects of the project. The Contractor shall at all times cooperate with and ensure that the Contractor and each of its partners, subcontractors and their employees and agents cooperate, in good faith, with such third parties and with any WHO in-house resources.
