2022/RFP/013: Questions & Answers

Provision of License-Based Access to an Online Skill Development Platform for UNHCR

Question	Answer
1. How many licences is the RFP for please?	An average number of 5000 licenses per year. This number is purely indicative and it does not represent a commitment from our side.
2. We can provide the 1st, 2nd and 5th services included in the article headings of the 'Proposed Services' Section in the '4.1 Technical Evaluation' table on Tor. Can we give a price offer partially for the above parts?	There is no intention to split the award so we cannot have a partial bid.
