

Question	Answer
<p>Is joint participation in the form of a consortium (Eswatini and firms based outside of Eswatini) acceptable under this CfP?</p>	<p>For this Grant, we are looking for applicants where the applicant and all consortium members are based in Eswatini. Hence, an application from a consortium with members based outside of Eswatini will not be permissible.</p>
<p>How can Safety, Health, Social and Environmental requirements in relation to the grant support be demonstrated?</p>	<p>Reference is made to the CfP Section 2.1 Approach and Methodology:</p> <p><i>The proposal has to outline what guidelines and principles the Applicant follows throughout the implementation of the project in the below areas. These may be corporate or universal guidelines, laws or internal policies.:</i></p> <ol style="list-style-type: none"> <i>1. Health and Safety Requirements</i> <i>2. Social and Environmental Requirements (such as gender and social inclusion)</i> <i>3. Protection from Sexual Exploitation and Abuse Requirements</i> <i>4. Sustainability Requirements</i> <p>It is required to demonstrate the health and safety requirements your organization has in place (organizational guidelines, applicable law, etc. as per above) and will follow throughout the project implementation. The evaluation criteria refers to this requirement.</p>
<p>What are the requirements for a Capacity Assessment if the grant budget is above USD 50,000?</p>	<p>Undergoing a capacity assessment is a new requirement for UNOPS Grantees, and consists of two separate assessments: Prevention of Sexual Exploitation and Abuse (PSEA), for which the self-assessment questionnaire is required to be submitted with your application to the CfP, and the organizational and financial capacity assessment. In case your application will move further in the evaluation process, we will send you another self-assessment questionnaire.</p> <p>In case your organization's capacity has been assessed previously by another UN organization (such as UNDP), we may accept the results of this assessment and you will</p>

	<p>not need to complete the questionnaire.</p> <p>At the current stage, only the submission of the PSEA self-assessment is required together with the proposal, as referred to under Section 1.11 of the CfP.</p>
<p>We do not know whether we are interpreting the following items in the table in section 5 correctly.</p>	<p><u>Tools for data collection</u>: Any tools can be considered, including also meetings, workshops and experts. This depends on the indicators selected to monitor the implementation.</p> <p><u>Frequency of data collection</u>: The frequency of the activities serving to collect data</p> <p><u>Responsible position</u>: This can be the person, organization or other entity responsible for the indicator.</p> <p><u>Disaggregation</u>: Disaggregation may not be relevant for all indicators listed, in case a disaggregation is not possible for your indicator listed, you may put "n/a".</p>
