----------------------------------------------------------------------------------

Geneva, 22 June 2023

**Consolidated Table of Q&A**

Dear Madam, Sir,

In accordance with the Solicitation Document bearing the reference **RFQ-S-BDT-2022-036** you may find below the consolidated table of Bidder's requests for clarifications and related ITU's answers.

We take this occasion to remind you that the Bid Closing Date has been extended to 30 **June 2023 at 15:00 hours (Geneva Time)** and late Quotes shall be rejected.

Yours faithfully,

Salimata Diallo  
Procurement Officer  
International Telecommunication Union

**Consolidated Table of Q&A**

Ref.No	BIDDER'S QUERIES	ITU'S ANSWER
	Kindly clarify on why a legal expert has not been included on the team list (perhaps as team leader) for a project that requires the development of an enabling <b>legal</b> and regulatory environment...	The assignment requires a good understanding of the policy and regulatory challenges and opportunities for the roll out of connectivity in Uganda using different technologies. This includes a need to understand and be able to review existing digital legal, policy and regulatory instruments. Expertise in the team to be able to conduct robust policy analysis in the ICT sector is mentioned in the terms of reference, as an example. The bidder decides how to compose the team.
