GENERAL NOTE

A-FOUNDATION AND EARTH WORK

- 1- Excavation of foundation shall be done from natural level (shown in drawing) and footing should place in cutting not in filling .
- 2-Befor the layout and construction of footing the ground should be compacted by roller and shall be pass with 95%compacted test com.
- 3-All work shall be done under consideration of structural engineer.

B-RCC WORK

- 1-All Rcc work (footing-beam-column-slab and stairs) shall be done with $F_c=280\text{kg/cm}^2$ (4000psi)
 $F_y=4200\text{kg/cm}^2$ (60000psi)
- 2-Placing , compact, curing from work , testing of concrete and steel must be done according to the specification .
- 3-All reinforced conceret shell be provided in batch plant and pour with conceret pump.

C-MASONARY WORK

- 1-Brick masonry ($F_c=75\text{kg/cm}^2$) to be used with 1:6 cement mortars $S_s=1.28$
- 2-External walls plaster to be used 1:5
- 3-Internal walls plaster to be used 1:5
- 4-PCC for leveling course /roof/floor tiles shall be done with $M150(F_c=150\text{kg/cm}^2)$.

D-COVER FOR STRUCTURAL ELEMENT

- 1-Footing5cm
 - 2-Beem.....3cm
 - 3-Column.....4cm
 - 4-Slab/Stairs.....2.5cm

BENCH "38.0"
 We are delighted to present our park furniture series, the design of which meets the latest requirements in terms of today's design and quality. These products are a response to the increasing demand for modern park furniture. Steel and wood have been used in this furniture series, highly suitable for use in public areas, parks, streets and leisure environments. The reaction surface of the furniture can be further enhanced through the use of color. The furniture blends well with architecture from any period.

The frame is of a solid welded and coated construction which can resist virtually any force. Whether because our effort has been spent to choose the right material and surface treatment.

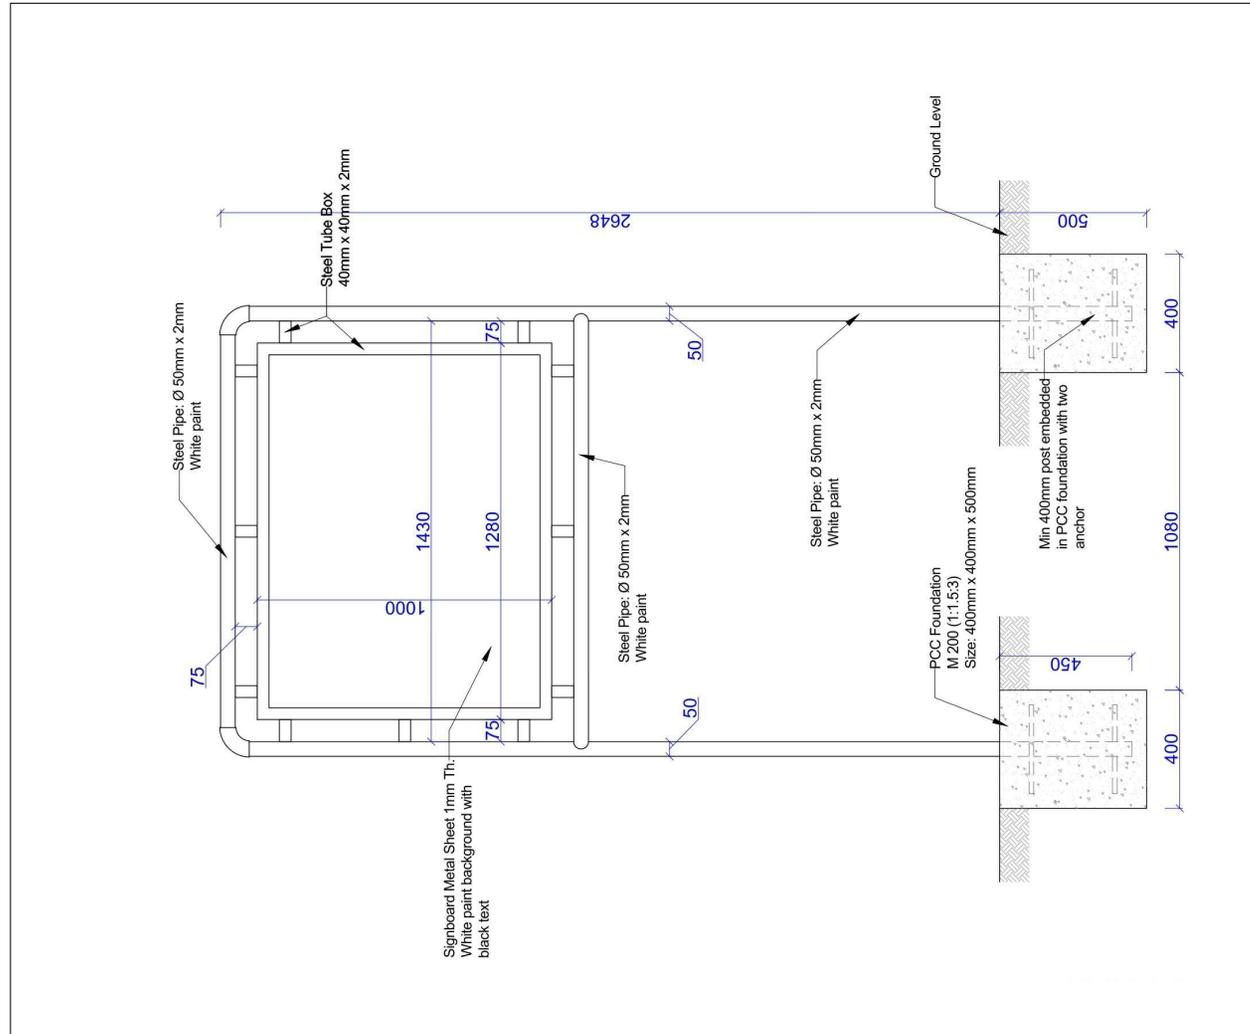

Certain situations require anchoring on or in the ground. All bench and table legs are therefore equipped with an anchoring hook in accordance with BS EN ISO 1461 after all due processing. The seat, back and table components are made of 40x120x1.600 mm for the seat and 40x180x1.600 mm for the back support.

The FSC logo identifies products which contain wood from well managed forests certified in accordance with the rules of the Forest Stewardship Council. Certified by SAI International (SMAL-COC-008189). See COC 008189 FSC Trademark © 1996/ Forest Stewardship Council A.C.
