

25 July 2023

To all bidders

**CLARIFICATIONS TO RFP-DAN-2023-503613
2024-2026 Rabies Immunoglobulin**

Question 1: In the context of point no. 3.5 Samples which state that Sample packaging materials are required for this solicitation process for technical review in Electronic format. We presume that we have to include details asked under this point in the proposal itself as PDF. The tender does not stipulate the quantity of samples (Physical format) to be submitted along with the proposal. We presume that there is no need of physical samples to be submitted with the proposal, please confirm.

Clarification 1: In this RFP no physical samples are required only electronic. According to the point 3.5 (page 10), each Proposal must include, with regard to each product offered in the Proposal, samples of each of the following in electronic format:

- High-quality photo of primary container including closure and label
- Electronic copy of primary container label
- High-quality photo of diluent/buffer primary container, if applicable
- High-quality photo of dropper or any other device and material to be provided in the secondary packaging, if applicable
- Electronic copy of insert
- High-quality photo of inner box

Question 2: May I ask you to let us know the validity of the offer?

Clarification 2: According to the point 6 (page 12) of the RFP, proposals should be valid for a period through to 31st December 2026. A Proposal valid for a shorter period of time may not be further considered. UNICEF may request the Bidder to extend the validity period. The Proposal of Bidders who decline to extend the validity of their Proposal will become disqualified as no longer valid.

Question 3: Please specify the requested source of immunoglobulin

Clarification 3: UNICEF does not restrict offers to products with a particular source of immunoglobulin. Each submitted offer will be evaluated based on the criteria published in the RFP document.

With best regards,
