

Summary of Key Changes

Revised Terms of Reference of a Project Named ASEAN Power Grid Advancement Program (APG-AP)

Disclaimer: The key changes summarized herein are provided for convenience and do not encompass all amendments to the Terms of Reference. Bidders must review the complete revised Terms of Reference thoroughly while preparing proposals. The summarized changes are not exhaustive and may not reflect all modifications.

Additional Requirements:

1. Bidders should include a table containing the key personnel, location throughout the project, and the total person days involved in the project.
2. Project team lead is required to be based in Jakarta, Indonesia to lead the data gathering and coordination with the ASEAN counterparts.
3. Extended Summary Report of the APG Roadmap is added as part of the deliverables.
4. Communications and Dissemination outputs are added to the ToR as part of the deliverables where the bidders must incorporate communication and dissemination strategies based on a specific set of outputs required by ETP.

Other key changes:

5. Change of the project name from ASEAN Power Grid Program (APGP) to ASEAN Power Grid Advancement Program (APG-AP) after the request from ASEAN Secretariat and in agreement with ACE and CASE.
6. Minimum Team Composition and Qualifications are elaborated in more details.
7. Updated timeline based on the new additional requirements and project deliverables.
8. Updated Results-Based Monitoring Framework (RBMF) in accordance with ETP's most recent RBMF with clear indicators and targets for the bidders to achieve.
9. Risks and mitigation measures are added to the ToR for the bidders to consider when developing the proposals.
