2	Since we are a local broker who only work in Ethiopia, we were wondering if the desired service providers would be limited to brokers that could operate internationally, or if they would be divided up by region (e.g., UNICEF Ethiopia for local brokers, and so forth).	One country only will not match our requirements for global presence

5	Could you kindly provide more details about what this term encompasses? Specifically, we are interested in understanding whether it refers to the premium associated with the insurance policies our company sells in the markets specified by unicef, or if it mean any other things specifically.
