## **Notice to Offeror: I**

Date: December 18, 2023

### **Subject: Response to Offeror's Request for Clarification**

**All Offerors are advised of the following respond and clarification for the raised questions on the announced RFP.**

<b><u>Question #</u></b>	<b><u>Questions</u></b>	<b><u>UNESCO Response to offeror's "Request for Clarification"</u></b>
1	Will the evaluation be conducted in person or virtual?	UNESCO prefers to do it in person. If any of the participants cannot be physically present (for any given reason), they can connect online. In other words, we can accept a hybrid workshop if exceptional circumstances might arise
2	If it will be held in person, will the logistics be the responsibility of UNESCO or the contractor?	Logistics will be a responsibility of the contractor, under the supervision of UNESCO which stands ready to facilitate at the maximum extent possible.
3	As for the Workshop with the reference group for methodology validation in person in Iraq/Mosul that will take place during the inception phase, will the logistics be the responsibility of UNESCO or the contractor?	Logistics will be a responsibility of the contractor, under the supervision of UNESCO which stands ready to facilitate at the maximum extent possible.
4	Is UNESCO able to provide contact details for the contractors, architects, and engineers? Are they all concentrated in and/or around Mosul?	Yes, UNESCO will be able to provide contacts of professionals and contractors involved in the physical reconstruction of the monuments included in the Project. All the contractors are from Iraq, mostly Mosul. Professionals are partially locals and partially internationals.
5	Is UNESCO able to facilitate access to camps for interviews/surveys with IDPs?	UNESCO will facilitate as much as possible. However, it remains a responsibility of the

		contractor selected for evaluation to organize possible visits and related surveys.
6	Does UNESCO have information on the numbers of IDPs and new residents in the old city? For sampling, does UNESCO have specific requirements or the preference is for proportional representativity?	UNESCO recommends using data published by IOM on DTM Iraq for IDPs and Returnees to the old city ( <a href="https://iraqdtm.iom.int/">https://iraqdtm.iom.int/</a> ). UNESCO doesn't have specific requirements for sampling at this stage. The contractor is free to propose the best sampling after studying the requirements and objective of the evaluation.

Yours sincerely,

UNESCO Office for Iraq
