

Site Visit Meeting Minutes

Subject: Installation of fencing, video surveillance, access control, and lighting of the territory of the fire and rescue unit of the State Emergency Service of Ukraine, Lviv, Ukraine – RFQ ref. No.: RFQ/2024/52589

Date/Time: 09/07/2024, 14:00 Kyiv time

Method/Place: 325, Shevchenka str., Lviv, Ukraine

Brief Summary of the Site Visit:

As envisaged by the RFQ/2024/52589 Particulars, UNOPS representatives conducted a site visit for interested bidders on 09 July 2024.

Representatives of one (1) interested company (Lviv-based contractors) participated in the visit.

The representatives were granted access to the facility and had an opportunity to witness the state of (insert the details)

The following aspects should be taken into Bidder's account:

There is an existing fence on the territory. Only the front part of the fence is to be dismantled. Photo

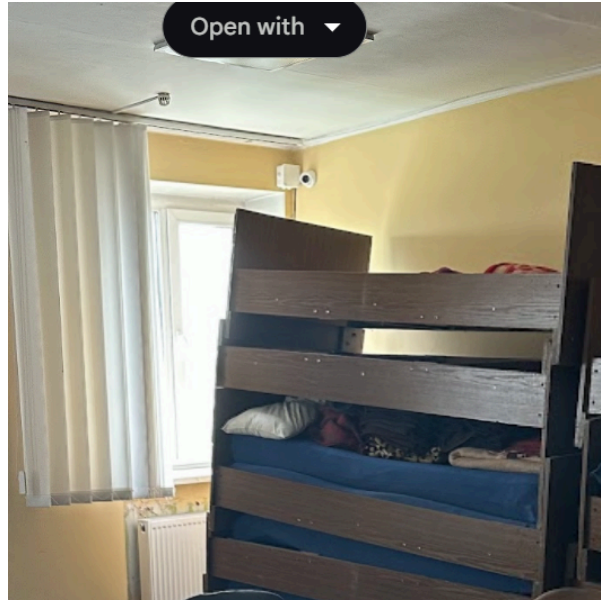

The current fence that doesn't require dismantling.

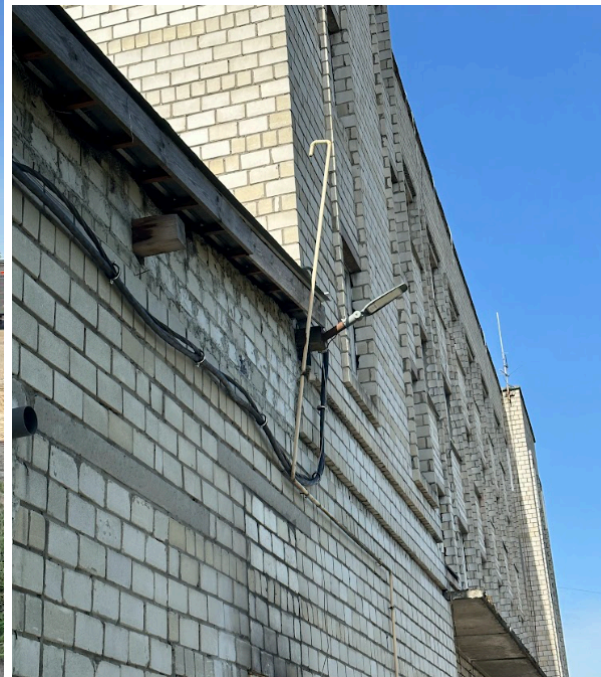

The existing video surveillance system and its connection. According to the project, preliminary dismantling and replacement. Photo

Reinforced concrete lighting poles that need to be dismantled. Street lighting on the administrative building. Transformer station located on the territory. Photo

Attention of bidders was drawn to the following important topics:

1. The ground level zero mark for the gate gates will be provided to the contractor by the designer before the start of the work.
2. Laying the cable on the territory of the administrative building will not delay the operation of the fire and rescue station. However, it is necessary to agree on a work schedule in advance so that rescuers can prepare
3. Before starting the work, each material to be used will undergo a material approval procedure. Also, the use of the appropriate material will be checked by technical supervision.
4. The BiQ file cannot be modified or edited. Only empty cells need to be filled in.
5. The facility is secured 24/7. Entry of unauthorized persons to the territory is prohibited.
6. These works do not require any permits.
7. Bidders were encouraged to thoroughly review the Solicitation and Design documents and raise questions using UNOPS eSourcing. UNOPS will answer these questions and publish them in the Revisions section of the respective UNGM Advertisement. This approach will ensure equal access to information for all interested companies.
