## Clarifications #1

**Reference:** RFQ 642495-AM

**Date:** 2024-08-28

**SUBJECT: 147799 - Alpha and Beta Radiometer for Chernobyl NPP, Ukraine (UKR9042)**

*Question #1:*

*Could you please provide information regarding the surface area of the detector in the project with code "RFQ 642495"? Is it 500 mm<sup>2</sup> or 1000 mm<sup>2</sup>? Which option would be more suitable to proceed with?*

**Answer #1:**

Both are equally acceptable, and the Specifications therefore do not include a specific requirement for the detector surface area.
