

Annex A: Scope of Work (SOW)

RFQ no. HCR/IRQ/COE/2024/RFQ-026

Additional required works for Kobani School in Erbil

The work includes the following:

- Construction of drinking water fountains for Boys and girls using concrete blocks and mortar, covered by Porcelain tile, with all plumbing works.
- Supply and install a polygam sheet (4mm) Moshajer to replace the damaged one in the school skylights and fix the existing frame.

Important Note:

- UNHCR engineers or a Third Party will inspect the material quality and workmanship. The work must be within engineering specifications/standards and time limits.
- The contractor is responsible for preparing a detailed shop drawing before starting the constitution and building drawings after construction.
- UNHCR will provide monitoring forms to the contractor responsible for filling these forms.
- The daily works will be overseen by a UNHCR engineer, partners, or third-party onsite daily.
- Daily and Weekly reports by the contractor will be prepared and submitted to the supervising engineers for endorsement.
- Detailed description and specifications are determined in the attached BOQ.
- The contractor must complete all works per the Drawings, Bill of Quantities, and Technical Specifications within 45 days of signing the contract agreement or site hand over.
- The contractor will be responsible for safely removing and disposing of used or leftover material from the site to the location identified by the UNHCR Engineer.
