

ANNEX A

TECHNICAL SPECIFICATIONS

Winter Jacket Specifications

RFQ/LBY/TR/24/035

1. **Insulation:**

- **Material:** Synthetic insulation (like PrimaLoft) or down insulation.
- **Weight:** Lightweight to provide warmth without adding bulk.

2. **Water Resistance:**

- **Fabric:** Water-resistant or waterproof outer shell (e.g., Gore-Tex, DWR-coated fabrics).
- **Seams:** Taped seams to prevent water from seeping in.

3. **Breathability:**

- **Fabric:** Breathable materials to prevent overheating (e.g., fabrics with moisture-wicking properties).

4. **Wind Resistance:**

- **Fabric:** Windproof outer layer to protect against cold winds.

5. **Fit and Comfort:**

- **Design:** Adjustable hoods, cuffs, and hems for a better fit and to keep out the cold.
- **Lining:** Soft, comfortable lining (e.g., fleece or microfleece).

6. **Additional Features:**

- **Pockets:** Multiple pockets for storage and hand warmth.
- **Zippers:** High-quality zippers that are easy to use with gloves.
- **Ventilation:** Underarm vents or mesh-lined pockets for additional airflow.
