

ANNEX A

TECHNICAL SPECIFICATIONS

Winter Boots Specifications

ITB/LBY/TR/24/043

Liners:

- lightweight thermal materials such as fleece for moderate warmth.

Breathability:

- Made from a combination of leather and nylon for breathability, ideal for varying temperatures.

Sole Bond Peel Strength:

- Designed for light to moderate use, with a sole bond strength of 2N/mm (heavy-duty strength is unnecessary for the local terrain).

Heel Height:

- Low to mid-heel (1 cm - 3 cm) for comfort in urban and suburban environments, suited for everyday wear.

Water Resistance:

- Focused on water resistance for rain protection, considering occasional wet conditions.

Colors:

- Neutral and dark colors like black, brown, and gray for adults, with multi-color options for kids for variety.

Sizes:

- EU sizes range from 36-45 for adults, and 30-35 for children.
