Implementing Partner Self-Assessment

- The PSEA self-assessment is a **mandatory document**. However, it is not considered in the technical or financial evaluation of proposals. Also, a low capacity rating does not generally prevent engagement with a grantee.
- The primary purpose of the assessment is to **identify** potential areas where capacity-building support may be needed on the part of the grantee.
- If certain PSEA requirements are not met, we may collaborate with the selected grantee to agree on measures to strengthen their capacity, as applicable and in consultation with them.
- Further details will be shared following the evaluation of proposals.
