	Questions	Answers
1	On the UN Global Marketplace (UNGM) our company is registered with the UNHCR. Will that be sufficient for this specific requirement?	Please submit the Vendor Registration form as well, as the UNHCR has a different VRC system.
2	How will the 70% be distributed across the three core criteria?	<p>Technical proposal weight 70% and Financial offer is 30%. Total points can be achieved in technical is 100, which will be multiplied by 0.7</p> <p>Technical points are weighted as below:</p> <p>Company Qualifications</p> <p>30%</p> <p>Proposed Services</p> <p>50%</p> <p>Personnel Qualifications</p> <p>20%</p>
3	Sixth paragraph - starting with "A fully-fledged ...", What criteria will UNHCR use to make the decision on upgrading to a full evaluation and who will make this decision?	<p>There are no fixed criteria. These will be discussed during the Inception Phase among the Evaluation Team, the Evaluation Manager and the Advisory Group who will take a decision by consensus.</p> <p>Obviously much will depend on whether the Evaluation Team will feel that there is sufficient data, whether it will be in a position to (re)construct a plausible ToC, etc.</p>
4	Fifth paragraph - starting with "After acceptance of the report ..." Approximately how many stakeholders will provide comments on the Final Report?	<p>Rather than number of persons, it is easier to estimate the number of UNHCR entities/departments/divisions. The primary ones will be the Division of Programme Support and Management (DPSM, partic. the Operations Solutions and Transitions Section) and the Division of International Protection (DIP, partic. the Community-Based Protection Unit and the Comprehensive Solutions Unit). Secondary ones will be the Division of External Relations and the UNHCR Representations (Country Offices) who will be selected for case studies / fieldwork. It is likely that several people within each Division or Office will provide comments, but every effort will be made that these will come in a consolidated fashion.</p>
