UNOPS, Drupal 8 Training

Background –

UNOPS mission is to help people build better lives and countries achieve sustainable development.

UNOPS provides its partners with advisory, implementation and transactional services, with projects ranging from building schools and hospitals, to procuring goods and services and training local personnel. UNOPS works closely with governments and communities to ensure increased economic, social and environmental sustainability for the projects we support, with a focus on developing national capacity.

UNOPS vision is a world where people can live full lives supported by appropriate, sustainable and resilient infrastructure, and by the efficient and transparent use of public resources in procurement and project management.

With over 8,000 personnel spread across 80 countries, UNOPS offers its partners the logistical, technical and management knowledge they need, where they need it. By implementing around 1,000 projects for our partners at any given time, UNOPS makes significant contributions to results on the ground, often in the most challenging environments.
