Description of Requirements

Context of the Requirement	Provision of expert technical support to Vodafone Fiji for devising a Digital Payments Business Strategy
Implementing Partner of UNDP	Pacific Financial Inclusion Programme (PFIP)
Brief Description of the Required Services ¹	<p>Vodafone Fiji is a leading mobile telecom operator in Fiji with a majority of the market share. To further enhance its customer offering Vodafone Fiji launched a mobile money offering in 2010 called Vodafone M-PAiSA.</p> <p>Since its launch Vodafone M-PAiSA has added numerous payments values chains viz. bill payments, mobile top-ups, domestic and international remittances, merchant payments, student scholarship etc. over a period of time. However, in addition to this over the period of time with the background of success in operating a payments platform Vodafone Fiji has seen significant expansion of its digital payments and m-commerce business. A few of the examples are as illustrated below:</p> <ul style="list-style-type: none"> • Vodafone Fiji is the sole operator of the country's e-transport system. This is a 100% cashless system in which users can pay fares using an NFC card issued by Vodafone • Vodafone Fiji has deployed more than 1,000 POS machines and is in the process of deploying self-service cash deposit kiosks to act as 'cash-in' points for its mobile money and e-transport offering • The mobile operator has also overseen significant disbursements of G2P (Government to Person) payments for cyclone relief and other welfare programmes run by the Govt. • Additionally Vodafone Fiji is also replicating its mobile money success by advising and supporting sister/associated companies in their mobile money deployments for Samoa, Vanuatu and Kiribati (Vodafone Fiji is part of the ATH Group which runs mobile telecom operations through subsidiaries in these geographies) <p>This has resulted in Vodafone Fiji having a diverse multi-faceted payments business with different form factors, usage patterns and varied means of users interacting with this system.</p> <p>Thus to better align its m-commerce offering Vodafone Fiji is in the process of structuring its Digital Payments Strategy to re-orient it towards providing a more consolidated and cohesive solution at the same time offering maximum value to the customers. With a majority of the market share and high levels of customer trust Vodafone Fiji is ideally positioned to provide customers a country-wide unified payments offering which they can use to access financial services with unparalleled ease.</p>

¹ A detailed TOR may be attached if the information listed in this Annex is not sufficient to fully describe the nature of the work and other details of the requirements.
