

Section II: Schedule of Requirements

eSourcing reference: [RFQ/2019/9090 Service of In-Person appraisal of a Boeing 787-8 – Dreamliner-](#)

Terms of reference:

Objective: A Certified In – Person aircraft appraisal (full appraisal) that includes an in-site inspection of the aircraft.

The inspection should be performed to aim the determination of aircraft overall condition and records to support the value opinion of the appraisal.

The certified appraisal must contain value definitions, images and provide an unbiased value that includes price adjustments/corrections from the mid-time/mid-life baseline of the aircraft.

The appraisal must reach and provide values considering the possibility of aircraft sale under civil or military registration.

Aircraft information:

Model: BOEING 787-8 DREAMLINER (Aircraft description data sheet and photos of the plane are attached)

The aircraft was always registered under civil registration XC-MEX. All operational history of the aircraft was entirely under civil registration. Only for reallocation purposes to Victorville, California (USA) - flight on 03 December 2018 - for preservation of the aircraft by BOEING, the registration was changed to military: FAM 3523 on 01 December 2018.

Place of execution of the services: Victorville, California (USA). Contractor will have access to this site from Monday to Friday from 9 am to 2 pm.

Delivery time: Selected bidder shall provide the services in 15 calendar days after Contract signature.

Report Format: One signed original printed version and a pdf version.

Language of the Report: The appraisal report must be issued in Spanish OR in English. In the latter case, it must be accompanied by an official translation to Spanish.
